

The Kids' Cancer Project

ABN 13 061 138 181

A Company Limited by Guarantee

Annual Report - 30 June 2021

The Responsible Persons present their report, together with the financial statements, on the Company for the year ended 30 June 2021.

Responsible Persons

The following persons were Responsible Persons of the Company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Doug Cunningham (Chair)
Nigel Everard (Deputy Chair)
Colin Reynolds OAM (Founder)
Simmone Reynolds
Richard Caldow
Cathryn Prowse
Sue Anderson
Debra Singh

Principal activities

The Company is established for the public charitable objects that the directors decide having regard to the recommendations of any advisory committee the directors establish. This includes (to the extent they are charitable), but not limited to, funding medical equipment, advocacy and supporting research programs into childhood cancer and related research.

Review of Performance

The Company returned a surplus in the year of \$562,918 (2020: deficit \$69,051).

The key financial objective for The Kids' Cancer Project is a continued investment in high quality research that provides the greatest opportunity to find improved treatments and survival for children with cancer. Over the last seventeen years, the total committed investment in research has been more than \$52 million including over \$2.7 million for the year ended 30 June 2021.

This past financial year saw the continued transition of our fundraising activities for our donors that provide for greater efficiency and therefore a greater relative contribution to research. The year-on-year improvement in gross margins was 4% with margins increasing from 63% in the previous financial year to 67%. This was achieved through an increase in regular giving, bear merchandising and continued positive trends in community fundraising, campaigns and corporate partnerships. We continue to work on our cost base as we complete this transition.

The operating surplus in FY2021 was \$562,918, up from the prior year, being approximately 6% of total revenue. This arose from a stronger fundraising performance and the benefits of a continued investment in staff capacity and capability particularly in the areas of digital marketing and data management in fundraising, which have a focus on future growth opportunities.

Management will continue to review and explore opportunities for improved fundraising performance and are committed to the continuing transition to higher yielding fundraising programs.

During the year The Kids' Cancer Project accumulated reserve grew by \$562,918 (2020: utilised \$69,051).

	2021 \$	2020 \$
Income Expense Surplus Available for Research	9,314,847 (6,019,578) 3,295,269	8,884,520 (6,317,295) 2,567,225
Research Funding & Governance Additional Cash Released to Fund Research & Governance Total Research Funding & Governance	(2,732,351) 	(2,567,225) (69,051) (2,636,276)
Surplus / (deficit) for the year	562,918	(69,051)

In the year to 30 June 2021 The Kids' Cancer Project has designated (budgeted) \$2.7m to fund research projects throughout Australia

Contributions on winding up

In the event of the company being wound up, ordinary members are required to contribute a maximum of \$100 each.

The total amount that members of the company are liable to contribute if the company is wound up is \$1,200, based on 12 current ordinary members (2020: 9).

Information on the Responsible Persons

Our Board of Responsible Persons is responsible for The Kids' Cancer Project overall performance and compliance, providing strategic direction, effective governance and leadership.

The particulars of the qualifications, experience and special responsibilities of each director who held office at any time during the year are as follows:

Doug Cunningham BCom, MBA (Chair)

Doug is Managing Director at Kimberley-Clark ANZ where he joined early 2019. Prior to this he enjoyed almost three decades at Johnson & Johnson in various roles across Asia Pacific, North America and Africa. He has extensive experience managing sophisticated global retailers and building capability with large multi-cultural organisations. After losing his five-and-a-half-year-old son Murray to brain cancer, Doug became determined to donate his time and business experience to finding cures for the devastating disease through scientific based research.

Nigel Everard FCPA, BCom, Grad Cert (Mgmt), MBA (Deputy Chair)

Nigel is Managing Director Oceania at one of the largest inflight global catering companies. Prior to this he was the Director of Operations Oceania. He has been CFO of a leading Australian quick service restaurant business. Throughout his 20-year career, he has held senior positions in operations, general management, finance, strategy and business improvement. Nigel has been deployed in Asia and Europe working in various industries including automotive, aviation, quick service restaurants and the not-for-profit sector.

Col Reynolds OAM, Founder

Col's contribution to the lives of children with cancer was officially recognised with an Order of Australia in 2000. Before founding the charity, Col was a tourist coach driver. He dedicated 30 years of his life to his profession, during which time he looked after many high-profile clients including US Secret Service agents and members of the Papal visit of Pope John Paul II.

Simmone Reynolds BCom (Marketing and Management), Masters (Military and Defence Studies)

Simmone is a founding member of The Kids' Cancer Project Board and is currently employed with the Australian Defence Force as a Communications Officer. Earlier in her career, Simmone spent nine years working in the fast-moving consumer goods sector holding positions in marketing, national account management and category development for blue chip multinationals Unilever Australasia and Nestlé.

Richard Caldow BCom (Finance and Accounting)

Richard has worked as a stockbroker, corporate finance and funds management advisor since 1992. Prior to this he worked in chartered accounting with roles at Ernst & Young and Arthur Andersen. Richard's son Archie was diagnosed with high-risk neuroblastoma at just three years of age. Archie is now living with cancer and attending high school.

Sue Anderson BBus, EBMA

Sue is Founder and Director of two Management Consulting Firms, Retail Capabilities and Co Squared. Her specialty lies in applied innovation to support government, property and broad business sectors as they evolve and transform. Sue discovered the importance of research into childhood cancer when her daughter Audrey was diagnosed with an inoperable brain tumour at age five. Audrey is now finding her way in high school and life with a positive outlook.

Debra Singh

Debra was the Group CEO Household Goods for Greenlit Brands overseeing Fantastic Furniture, Plush, OMF and Freedom, and was also an Executive Director on the Board until March 2020 when she transitioned into semi-retirement. She has more than 30 years' experience in General Management, Retail Operations, Organisational Design, Human Resources and Change Management. Prior to this, Debra had a career with Woolworths spanning more than a decade during which she was the first female to lead a trading division. Debra is also a member of the Chief Executive Women's (CEW) organisation.

Cathryn Prowse LLB (Hons), BEc

Cathryn is a law partner at Colin Biggers & Paisley practising both insurance and employment law. She is in the 2018, 2019 and 2020 editions of The Best Lawyers in Australia in the field of insurance law for her work acting on behalf of professionals and entities facing negligence claims. In the employment space, she acts for employers in unfair dismissal, general protection, discrimination, underpayment OH&S and other workplace-related claims.

Meetings of Responsible Persons

The number of meetings of the Company's Board of Responsible Persons ('the Board') held during the year ended 30 June 2021, and the number of meetings attended by each Responsible Person were:

	Full Board	
	Attended	Eligible
Colin Reynolds	5	6
Sue Anderson	6	6
Richard Caldow	6	6
Nigel Everard	6	6
Simmone Reynolds	6	6
Debra Singh	5	6
Doug Cunningham	5	6
Cathryn Prowse	5	6

Held: represents the number of meetings held during the time the Responsible Person held office.

Key Management Personnel Compensation

	Short Term Benefits \$	Post- Employment Benefits \$	Other Long- Term Benefits \$	Termination Benefits \$	Total \$
2021 Total Compensation	513,532	47,469	42,964	-	603,965
2020 Total Compensation	487,840	44,361	27,159		559,360

Purpose and Objectives

The Company has a single mission: to support bold scientific research that has the greatest chance of clinical success in the improvement of treatments of childhood cancer. We know that the only way to cure childhood cancer is through science. To that end we select and fund researchers without geographical or institutional barriers.

Childhood cancer claims the lives of more children in Australia than any other disease. Although 80% of children survive childhood cancer, two of the most common childhood cancers, neuroblastoma and brain tumours, still take half of the children they affect.

By supporting world-class research, we aim to make kids' cancer history.

We are committed to understanding the questions that a family asks when their child is newly diagnosed and have used this awareness to guide our priorities for a cure. They are:

- Discovering new treatments
- Developing safer treatments and understanding the long-term side effects on health of current treatments
- Increasing capabilities by playing a key role in research infrastructure, collaboration and succession planning
- Understanding childhood cancer by ensuring that the outcomes for Australian children is world-class
- The Kids' Cancer Project has defined a child as 0-18. We wish that future research projects take adolescents and young adults into consideration
- Understanding the causes of childhood cancer
- Advocate for equality in access to care
- Advocate for hospital facilities and clinical trial participation to be a priority for the Australian government

The Company is guided by eminent medical and research experts who form our international Research Advisory Committee.

On behalf of the Responsible Persons

Colin Reynolds

Colin Reynolds OAM Founder and director

Nigel Everard Deputy Chair

In the Responsible Persons' opinion:

- the attached financial statements and notes comply with the Accounting Standards, the Australian Charities and Notfor-profits Commission Act 2012 and New South Wales legislation the Charitable Fundraising Act 1991 and associated regulations, the Corporations Act 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Company's financial position as at 30 June 2021 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

On behalf of the Responsible Persons

Colin Reynolds

Colin Reynolds OAM Founder and director

12 November 2021

Nigel Everard Deputy Chair The Kids' Cancer Project
Declaration by the Chief Executive Officer
30 June 2021

Declaration by the Chief Executive Officer in respect of fundraising appeals pursuant to Section 7(5) of the Charitable Fundraising Act 1991 – Regulations

- I, Owen Finegan, Chief Executive Officer of The Kids' Cancer Project declare, in my opinion:
 - The financial report gives a true and fair view of all income and expenditure of the Company with respect to fundraising appeals, for the financial year ended 30 June 2021;
 - The statement of financial position gives a true and fair view of the state of affairs with respect to fundraising appeals, as at 30 June 2021;
 - The provisions of the Charitable Fundraising Act 1991 and the Regulations and the conditions attached to the authority have been complied with for the period 1 July 2020 to 30 June 2021; and
 - The internal controls exercised by the Company are appropriate and effective in accounting for all income received.

It is not always practicable for the Company to establish accounting control over all sources of fundraising activities prior to receipt of the funds by employees of the Company.

Owen Finegan

Chief Executive Officer

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board, the Australian Charities and Not-for-profits Commission Act 2012 and New South Wales legislation the Charitable Fundraising Act 1991 and associated regulations and the Corporations Act 2001, as appropriate for not-for profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 2.

Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Revenue recognition

The Company recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Company: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability.

Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.

Rendering of services

Revenue from the rendering of a service is recognised upon the delivery of the service to the customers.

Donations

Donations, appeals and bequests are recognised on a receipt basis.

Raffles

Revenue relating to raffles is recognised when the raffle is completed and drawn.

Note 1. Significant accounting policies (continued)

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

As the Company is a charitable institution in terms of subsection 50-5 of the Income Tax Assessment Act 1997, as amended, it is exempt from paying income tax.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Company's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Company's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Inventories are stated at the lower of cost and net realisable value on a 'first in first out' basis. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Inventories acquired at no cost or for nominal consideration are valued at the current replacement cost at the date of acquisition.

Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Note 1. Significant accounting policies (continued)

The carrying amount of plant and equipment is reviewed annually to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets' employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement profit or loss and other comprehensive income during the financial period in which they are incurred.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Furniture & fixtures	10% - 20%
Office equipment	25% - 35%
IT equipment	33%
Motor vehicles	20%
Leasehold improvements	15% - 20%

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the company. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. A formal assessment of recoverable amount made when impairment indicators are present.

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Company expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Company has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Intangible assets

Software

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 5 years. It is assessed annually for impairment.

Note 1. Significant accounting policies (continued)

Impairment of non-financial assets

Non-financial assets are reviewed for impairment at the end of each reporting period or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount in the statement of profit or loss and other comprehensive income.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Provisions

Provisions are recognised when the Company has a present (legal or constructive) obligation as a result of a past event, it is probable the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

The Company provides funding for research, which due to the timing of the funding, can be either fully or partially unpaid at the end of the reporting period. Provision is made for the Company's liability for unpaid awards at the end of the reporting period.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Note 1. Significant accounting policies (continued)

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2021. The Company has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Coronavirus (COVID-19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Company based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the Company operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Company unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

Fair value measurement hierarchy

The Company is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Estimation of useful lives of assets

The Company determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the Company's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The Company reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Employee benefits provision

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Lease make good provision

A provision has been made for the present value of anticipated costs for future restoration of leased premises. The provision includes future cost estimates associated with closure of the premises. The calculation of this provision requires assumptions such as application of closure dates and cost estimates. The provision recognised for each site is periodically reviewed and updated based on the facts and circumstances available at the time. Changes to the estimated future costs for sites are recognised in the statement of financial position by adjusting the asset and the provision. Reductions in the provision that exceed the carrying amount of the asset will be recognised in profit or loss.

Gross Revenue from Fundraising Less: Direct Costs of Fundraising Gross Surplus from Fundraising Gross Margin from Fundraising	8,996,041 (3,004,031) 5,992,010 67%	8,664,188 (3,213,247) 5,450,941 63%

The Kids' Cancer Project is committed to the ongoing improvement in fundraising effectiveness through acquisition and retention of its supporter base and the continuing reduction of relative costs. Our total funds raised in the year have been very strong despite being impacted by the COVID-19 pandemic.

Some factors impacting the gross surplus from fundraising during the financial year comprised the following:

- Regular Giving (Donations) continued to grow from strength to strength in FY2021, reaching over \$1.5 million in gross
 revenue for the first time at \$1.7m. This was achieved by increased investment in this segment of \$261,658 over the
 previous year, enabling our donors to make a greater impact through more sustainable long-term giving and ensuring
 our ability to commit to long-term future research opportunities. An eventual reduction in the cost base is expected as
 these revenues continue to develop.
- Donations overall in FY2021 included bequests of \$309,733 as against FY2020 of \$70,066. Excluding bequests, donation gross profit increased year on year by \$359,166, being an increase of 8%. The key factors supporting this growth were: an increase in regular givers to the charity, strong community support, a strategic focus on the major gift program and continued corporate engagement. Donations as a proportion of total gross surplus increased from 82% in FY2020 to 85% in FY2021.
- Bear merchandising continued to fall by 18%, with the gross surplus falling by \$78,473 from \$432,280 in FY2020 to \$353,807 in FY2021. Sales of bears through digital means are slowly gaining traction through different programs, and a push to improve the fundraising margin is continuing, trialling new partnerships in the future.
- The number of raffles was maintained at four, being the last year that the raffles would be sold via the telemarketing program. Though overall the gross surplus on raffles rose by \$20,711 from \$547,697 to \$568,408, the increase was just shy of 4%. Average revenue per raffle declined by 21%, similar to the previous financial year. The results demonstrate the timeliness of the move away from telemarketing to focus on running raffles in the new year via digital means through the TKCP's own purpose-built website, which will save on expenses into the future.

Fundraising expenses include specific direct costs and exclude salaries and allowances and other expenses not directly related to fundraising. In New South Wales the raffle is regulated as an Art Union. All raffles conducted in the year met the minimum regulatory requirements imposed. In Queensland the number of raffle ticket sales allowed per raffle in the state is capped – there were no breaches of this cap in the year.

^{*} Raffles are conducted in all Australian States and Territories bar Western Australia and South Australia and raffle income and costs incurred relate solely to raffle ticket sales.

Note 19. Financial instruments

Financial risk management objectives

The Company's activities expose it to a variety of financial risks: market risk (including interest rate risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Company. The Company uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and other price risks.

Risk management is carried out by senior finance executives ('finance') under policies approved by the Board of Responsible Persons ('the Board'). These policies include identification and analysis of the risk exposure of the Company and appropriate procedures, controls and risk limits. Finance reports to the Board on a monthly basis.

	2021 \$	2020 \$
Financial Assets Cash and Cash Equivalents	2,497,141	1,991,414
Financial Liabilities Trade and other payables	1,343,294	1,130,067

Market risk

Interest rate risk

The Company is not exposed to material interest rate risk.

Note 19. Financial instruments (continued)

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The Company obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The Company does not hold any collateral.

The Company has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables through the use of a provisions matrix using fixed rates of credit loss provisioning. These provisions are considered representative across all customers of the Company based on recent sales experience, historical collection rates and forward-looking information that is available.

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year.

Liquidity risk

Vigilant liquidity risk management requires the Company to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The Company manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 20. Capital management

Management controls the capital of the Company to ensure that adequate cash flows are generated to fund research programs and that returns from investments are maximised.

Risk management policies are approved and reviewed by the Board on a regular basis. These include credit risks and policies and future cash flow requirements.

Management effectively manages the Company's capital by assessing the Company's financial risks and responding to changes in these risks and the market. There have been no changes in the strategy adopted by management to control the capital of the Company since the previous financial year.

Note 21. Contingent liabilities

A bank guarantee for \$123,617 has been established with a third party in relation to the property lease rental and is in place for the term of the lease (2020: \$122,833).

Note 22. Related party transactions

Transactions with related parties

There were no transactions with related parties during the current and previous financial year.

Receivable from and payable to related parties

There were no trade receivables from or trade payables to related parties at the current and previous reporting date.

Loans to/from related parties

There were no loans to or from related parties at the current and previous reporting date.

Note 23. Events after the reporting period

Given the ever-changing conditions in relation to the global COVID-19 pandemic the Board are unable to quantify or estimate the current and long-term financial effects of COVID-19 on the Company as at the date of signing this report. The Board will continue to assess the situation as it develops.

No other matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Note 24. Reconciliation of surplus/(deficit) after income tax to net cash from/(used in) operating activities

	2021 \$	2020 \$
Surplus/(deficit) after income tax expense for the year	562,918	(69,051)
Adjustments for: Depreciation and amortisation	389,395	177,942
Change in operating assets and liabilities: Decrease/(increase) in trade and other receivables Decrease/(increase) inventories Decrease/(increase) in other assets Increase/(decrease) in employee benefits Increase/(decrease) in deferred income Increase/(decrease) in trade and other payables	10,776 17,853 (445,418) 42,870 14,942 213,225	4,901 80,197 126,636 37,793 (162,420) (387,198)
Net cash from/(used in) operating activities	806,561	(191,200)

For the year ending 30 June 2020 an amount of \$23,095 for interest on leases has been transferred to trade and other payables as a correction to the previous accounts.

The Kids' Cancer Project

Independent auditor's report to members

Report on the Audit of the Financial Statements

Opinion

We have audited the financial report of The Kids' Cancer Project (the Company), which comprises the statement of financial position as at 30 June 2021, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the Responsible Persons' declaration.

In our opinion the financial report of The Kids' Cancer Project has been prepared in accordance with Division 60 of the *Australian Charities and Not-for-profits Commission Act* 2012, including:

- a) giving a true and fair view of the Company's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
- b) complying with Australian Accounting Standards and Division 60 of the *Australian Charities and Not-for-profits Commission Regulation 2013*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Australian Charities and Not-for-profits Commission Act 2012 (ACNC Act) and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Responsible Persons are responsible for the other information. The other information comprises the information included in the Responsible Persons' report for the year ended 30 June 2021, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

ACCOUNTANTS & ADVISORS

Sydney Office Level 29, 66 Goulburn Street Sydney NSW 2000

Parramatta Office Level 7, 3 Horwood Place Parramatta NSW 2150

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Responsible Persons for the Financial Report

The Responsible Persons of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards, the ACNC Act and the needs of the members. The Responsible Persons responsibility also includes such internal control as the Responsible Persons determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Responsible Persons are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Responsible Persons either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Responsible Persons are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of these financial statements is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/auditors_responsibilities/ar8.pdf

This description forms part of our independent auditor's report.
